

Home Economics at Central Valley Christian Academy

During the month of May with their teacher, Mrs. Williams. One of the students who participated, Jeremiah Swartzman, explained how he and his class made the ice cream: “We added salt and half and half milk and we put them into a bag with ice and we threw it to each other for 20 minutes until it felt stiff. We then put on some toppings: chocolate syrup, hot fudge. Nick hogged up all the chocolate.” This was a very memorable moment for students. “Thank you for everything that you have done for us Mrs. Williams,” the students shared.
