

Career Day Inspires Young Minds at Lodi Academy

Young minds were recently inspired during Lodi Academy's career day! Before their spring break, students spent time with local professionals from the Lodi community to network and spark interest in potential careers.

"Lodi is blessed to have such great mentors in service," the school shared on social media. "A special thanks to our alumni who experienced the Lodi Academy program, serve their communities, and are completing the circle of service... A big thanks to all of our presenters who gave their time because of their passion for their careers and young people."
